Mining and Financial News

BY REVIEW LEASED WIRE

NEW YORK, Nov. 11.—Revival of peace rumors, echoes of the recent campaign and reports of over production in certain lines of industry, notably the automobile trade, probably accounted in varying degree for the irregular and at the time, unsettled tone of today's market.

Speculative issues, including Central Leather, Industrial Alcohol and less seasoned industrials and equipments were pressed for sale with Mexicans, the latter yielding on advances suggesting fresh disturbances across the border. Leather made an extreme decline of 5 3/8 points, with five for alcohol, ten for Bethlehem Steel, on a few transactions, two to three for motors and allied shares, and one to two for higher grade specialties, marines and sugars.

United States Steel again was the most active stock, making an extreme loss of 1 1/4 points, regaining less than half. Rails were consistently heavy, investment issues, as represented by Union Pacific and Reading, losing more than a point.

Coppers were the mainstay of the market, particularly Utah, which rose 3 1/2 points to 119 1/2, a new record; Chino and Ray coppers also selling at new top prices. Total sales of stock approximated 900,000 shares.

The bank statement was noteworthy for the enormous expansion of almost \$98,000,000 shown in the actual loan account, this being reflected in large part by increased deposits. A decrease of more than \$25,000,000 in reserves again brings the total excess slightly under \$100,000,000.

Bonds were irregular on limited dealings. Total sales, par value, \$1,975,000.

U. S. bonds were unchanged on call during the week.

CHICAGO GRAINS

CHICAGO, Nov. 11.—Big export sales in the United States and heavy damage in Argentine gave strength to the wheat market today. The close, although unsettled, was 1/2 to 1 1/2 net higher, with December at 189 1/2 and May at 193 1/2 to 1/2. Corn gained 2 to 3 1/2, and oats 1/2 to 5/8. In provisions the outcome ranged from 30 decline to a rise of 25c.

Until the fact was fairly well established that liberal export business in the United States had followed the receipt of bullish crops advices from Argentina, the upturn in the market here were not of a lasting character, despite estimates that the Argentine exportable surplus had been reduced to 23,000,000 bushels. Stress was placed on the fact that primary domestic arrivals for the week were 9,200,000 bushels less than during the corresponding week last year.

Houses with seaboard connections were active purchasers of futures. Profit-taking operated at times as a decided offset.

Corn mounted to the highest prices this season. Rough weather, export buying, and bullish Argentine crop conditions largely were responsible. In oat the principal factor was the strength of corn. There was also a good export demand.

Provisions averaged low influenced by predictions of increased arrival of hogs next week. Shipments of hard and meats showed a notable falling off as compared with a year ago.

METALS MARKET.

NEW YORK, Nov. 11.—Copper firm; first quarter 29 1/2 to 31 1/2. Second quarter 29 to 30; one sale reported at 32 1/2. November shipment, new high record. Bar silver 71 1/2.

EVACUATION OF CHIHUAHUA CITY IS BELIEVED ON

(By Review Leased Wire.)

SAN ANTONIO, Nov. 10.—The arrival of a troop train at Juarez today bearing 600 Carranza soldiers from the Chihuahua City garrison was reported to southern department headquarters from army sources. Significance was attached to the movement in official circles because of the pressure Villa troops have brought to bear against Chihuahua City for the last few weeks.

It was pointed out here the sending of troops to the border at this time might mean that the evacuation of Chihuahua City had been commenced.

Under his supervision are the railroads, postoffices, telegraph lines, and all other public works of Mexico. He is one of three commissioners recently sent her by General Carranza.
